

We need warehouse space in Las Vegas. Many companies in Las Vegas and across the country have unused warehouse space. Please network with us and find a company that will allow us to use space to store toys and supplies destined for children around the world.

We turn down millions of supplies because we do not have enough warehouse space. We could help many more children and families if we had additional warehouse space to store the supplies while we organize the logistics to ship the supplies around the world.

We thank our supporters for donating warehouse space in North Las Vegas. The donated space has given Another Joy the opportunity to accept over 3.5 Million in vegetable seeds, school books, toys, medicine and medical supplies. Many of the supplies have already been shipped around the world providing joy and hope to the less fortunate.

Please join our mission and help us with much needed warehouse space. Your time and help is greatly appreciated. Have a blessed day.
